

CR-WiFi G3/WF 11 remote controller/ dock

INTRODUCTION:

CR-WiFi G3 is a remote controller with LCD touch panel function, users could enjoy the touching feeling when use the remote controller CR-WiFi G3 is based on reliable WiFi communication, could not only control all external devices connected to the network, but also CREATOR SC-PIP202-302 professional switcher. CR-WF11 is controller dock, which is not only a charger for touch panel, but also a professional wireless connector.

PARAMETERS:

CR-WiFi G3

Indicator: Standby indicates off
 Power: power button
 USB connector: Mini B
 Charge connector: It's charging when connected to the dock
 Size: 56L*18W*175H(mm)
 Weight: 250g

CR-WF11

Network: RJ45 connector
 Power: DC12V plug-in rechargeable connector
 Size: 130L*130W*48.5H(mm)
 Weight: 150g

FUNCTION:

CR-WiFi G3

- 1, 802.11b/g wireless Ethernet dual communication
- 16 bit or above color depth
- Electrode less intensity control
- Contrast: 350:1
- Visible angle: vertical-120°, horizontal-120°
- Built-in speaker
- Portable dock
- L days battery 3 hours' continuous work, hours of use is 2.5
- 16MB RAM, 16MB flash (could be upgraded to 64MB)

CR-WF11

- New wireless connector provide smart and reliable solution which based on convenient network for business or home environment. Smart and reliable WAP make any model of the touch panel cover a vast covered area
- Support multi-VLAN, WAP could be used to create independent and safe network, which could also be operated independently
- 3 set model
- Wireless connector model, wireless connector model/repeater model, bridge model
- Support computer to connect with high speed Ethernet
- 2.4GHz, IEEE802.11g and 802.11.b
- Bandwidth: 54M bps
- Indoor: 30.5m, Outdoor: 305m
