Specifications

Display: 65K true color TFT LCD

Resolution: 800×480 pixel

Communication: Wireless bidirectional

Panel dimension:7.0" /17.8cm diagonal

Displayer dimension: 176.6(H) ×99.4(V)

Application: Connect with CR-PGMII、Touch-AV controller

Illumination: EL back-lit

Communication interface: USB interface

Memory: 32M

Radio frequency: 433MHZ 2.4GHz

Remote distance: 80m (open area)

Control mode: Wireless bidirectional

Dimension (mm):196L×131W×31D

Weight: About 750g

External power supply: DC12V/3.0A

Battery

Battery capacity: 5000 mAH

Consecutive working time : > 6 hours

Stand-by time: Up to 60 days

Saturation time: About 5 hours

Temperature of charging: 35 °C -50 °C

Specification: Lithium 7.2V
